Was your 1945 income \$500 or more? If so, you must file an income tax return by December 31, 1946, either on a Withholding Receipt or on Form 1040.
Was your 1945 income under \$500? If so, file a return to get a refund of tax withheld. Married couples should file a combined return to get full benefit of exemptions.

INSTRUCTIONS FOR FILING YOUR INCOME TAX RETURN

A. Who Must File.—Every citizen or resident of the United States who had income of \$400 or more in 1948 must file a Federal income tax return on Form 1040A or Form 1040. This is required whether you are single or married, and whether you were a minor or an adult.

A single person with less than \$400 income should file a return to get a refund if tax was withheld. A married person with income less than her (or his) own personal exemption(s) should always file a joint return with husband or wife to get the smaller tax or larger refund for the couple. No refund can be made unless a return is filed.

B. Who May Use Optional Return Form 1040A.—If your total income was less than \$3,000 and consisted entirely of wages reported on Withholding Statements (Forms W-2), or of such wages and not more than \$100 total of other wages, dividends, and interest, you may use Employer's Optional Income Tax Return (Form 1040A). If you had any income from other sources, such as salaries, rents, royalties, a business or profession, farming, transactions in securities or other property, partnerships, estates, and trusts, you may not use Form 1040A but must file your return on Form 1040.

If you use Form 1040A, the Collector of Internal Revenue will compute the tax and send you either a check for any refund due you or a bill for any amount you owe. The Collector will compute your tax from the table provided by law which allows \$600 for each exemption and about 10 percent of your total income for charitable contributions, interest, taxes, casualty losses, medical expenses, and miscellaneous losses. If your deductions amount to more than 10 percent of your income, it will generally be to your advantage to use Form 1040 and compute your own tax.

C. Married Couple—Advantage of Joint Return.—A husband and wife may file a joint return on Form 1040A if their combined incomes do not exceed the limits described in Instruction B above. A husband and wife may make a joint return even though one has no income. To secure any benefits of the split-income provisions, husband and wife should file a joint return. **BOTH HUSBAND AND WIFE MUST SIGN A JOINT RETURN.**

A joint return on Form 1040A never results in more tax than separate returns because the tax is computed by the Collector on the combined incomes or on the separate incomes, whichever results in the smaller tax or larger refund for the couple. If each has income, they must list their incomes separately in Item 6. Both husband and wife are responsible for any tax which is due on a joint return, and any refund check will be addressed to both.

D. Your Exemptions.—Fill in Items 1, 2, and 3 on either Form 1040 or Form 1040A in order to get credit for your exemptions. The law allows—

- (Item 1) One exemption for you—two if you are either 65 years of age or over OR blind—three if you are both 65 or over AND blind;
- (Item 2) One exemption for your wife (or husband), unless her exemption is claimed on another return—two if she is either 65 years of age or over OR blind—three if she is both 65 or over AND blind;

One exemption for each dependent who is a child, stepchild, grandchild, or other person who received more than half his or her support from you and who had less than \$200 income in 1948; and one for each person who is blind, aged, or otherwise dependent on you and who had less than \$200 income in 1948.
